

Who we are...

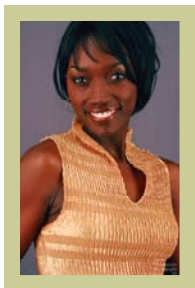

Our vision is to provide quality education to HIV orphans and abandoned children.

Growing up in Kenya gave me the opportunity to see the disparity between the children who had an opportunity in life and those who had nothing. Poverty and HIV have left millions of children in dire need of a helping hand, seeking for means to survive under desperate, egregious, conditions.

My desire is to reach out and give these children an opportunity to thrive, realize their potential, build their own communities and give back to others in the future...

Join me in making a difference.

Testimonial

“My desire is to heighten my daughters’ and my own awareness of the world around us. Far too many of us take what we have in America for granted and too often we have become desensitized to the plight and pain of others. My daughters and I understand... And this is where we are starting.”
